What our Authors have to say...

Dr. Ivan Damjanov
Professor, Department of Pathology and Laboratory Medicine, The University of Kansas School of Medicine, Kansas City, Kansas, USA

So far three written or edited more than 30 biomedical books, three of which were produced and published by Jaypee Brothers Medical Publishers (P) Ltd. I cannot find words to describe the professionalism of the Jaypee Brothers’ staff, their attention to details, their technical perfectionism, and the incredible flexibility and patience they displayed in dealing with me and my collaborators.

Javad Parvizi
Professor, Department of Orthopedic Surgery, Jefferson Medical College, Thomas Jefferson University. Vice Chairman of Research, Rothman Institute, Philadelphia, USA

Jaypee Brothers epitomizes what a truly evolved and modern publisher should be. The professionalism, responsiveness, discipline, and expediency displayed by Jaypee team is unparalleled. It is a rare pleasure for me to work with Jaypee. I do not know of a single publisher that can deliver a book from conception to print in less than one year. Keep up the great work.

Dr. Myron Yanoff
MD, Professor and Chairman, Department of Ophthalmology, Drexel University College of Medicine, Philadelphia, PA, USA

Wonderful group to work with. Very professional and efficient. Deliver on their promises and deliver on time.
